Portfolio: <https://jesterb0206.github.io/react-portfolio/>

Driven and detail-oriented full stack web developer with experience in Javascript, CSS, React.js and responsive web design. Educational background includes a bachelor's degree in Communications from Seattle University and a Full Stack Web Development certification from the University of Washington. Motivated to learn, apply skills and excel in building an impactful user experience to best attract an audience. Passionate about developing apps with prioritization on mobile-first design and development. Eager to work cohesively with others in a fast-paced, quality-driven team to enhance web experience.

Projects

ART (C)ART | Deployed Link: <https://art-cart-gui-guys-production.herokuapp.com/login> |
Github Repository: <https://github.com/jesterb0206/art-cart>

- ART (C)ART is a full-stack application, which combines a robust back end—with server connections, databases, advanced APIs, and user authentication—to an intuitive front end.
- Artists can upload their original works (as well as prints) to sell all across the globe! ART (C)ART connects artists to consumers and art lovers alike!
- Tools/Languages: HTML, CSS, JavaScript, MySQL, Express, Handlebars, Node

Book Search Engine | Deployed Link: <https://book-search-engine-0206.herokuapp.com/> |
Github Repository: <https://github.com/jesterb0206/book-search-engine>

- Book Search Engine is a Google Books API search engine/GraphQL API built with Apollo Server.
- Users can search for books but if they wish to save a book they either need to sign up or login in. Once they save a book they can view their saved books on a separate page and can click on links to purchase them on the Google Books store.
- Tools/Languages: GraphQL, Bootstrap, Express, JavaScript, JSON Web Token, MongoDB, Node, React, Webpack

Natours | Deployed Link: <https://natours-production-0a23.up.railway.app/> | Github Repository: <https://github.com/jesterho2o6/natours>

- A RESTful API / web app with authentication, Node.js security, payment processing and more!
- Natours is a tour booking site that allows users to browse nature tours, "purchase" tours they wish to buy, view tours they've booked, update their login credentials and profile picture, and so much more!
- Tools/Languages: Mapbox, Axios, Parcel, Postman, Pug, Stripe, Multer, JavaScript, MongoDB, Express, Node

Experience

June 2021 - October 2022

Nordstrom, Tukwila - Service Experience Representative

- Assist customers with a variety of transactions through a seamless and friendly experience
- Demonstrate expertise in all technologies used in the store environment
